Deborah Jamieson, Ed.D  
Principal

8/3/21

Dear Parents and Community Members,

As we return to school, Pembroke Elementary has the opportunity to use \$330,000 of federal money to support our safe return to in school instruction. This comes under a grant titled ESSER III SER. Twenty percent of this grant money must directly address the learning loss of our students due to Covid-19 but the remainder has many possibilities.

Some ideas may include, but are not limited to, expanding our educational programming, after school activities, expanding outdoor learning and recreational opportunities, possibly a school greenhouse, sanitary and safety considerations, and social emotional supports. We look forward to hearing from you about other ideas that may not have been mentioned.

We are asking the community to share your ideas on how this money might benefit our students and our school. Please share your comments with us via email to [djamieson@pembroke.aos77.k12.me.us](mailto:djamieson@pembroke.aos77.k12.me.us) or by calling the school at 207-726-5564.

We look forward to hearing your ideas!

Sincerely,

Debbie Jamieson
